PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

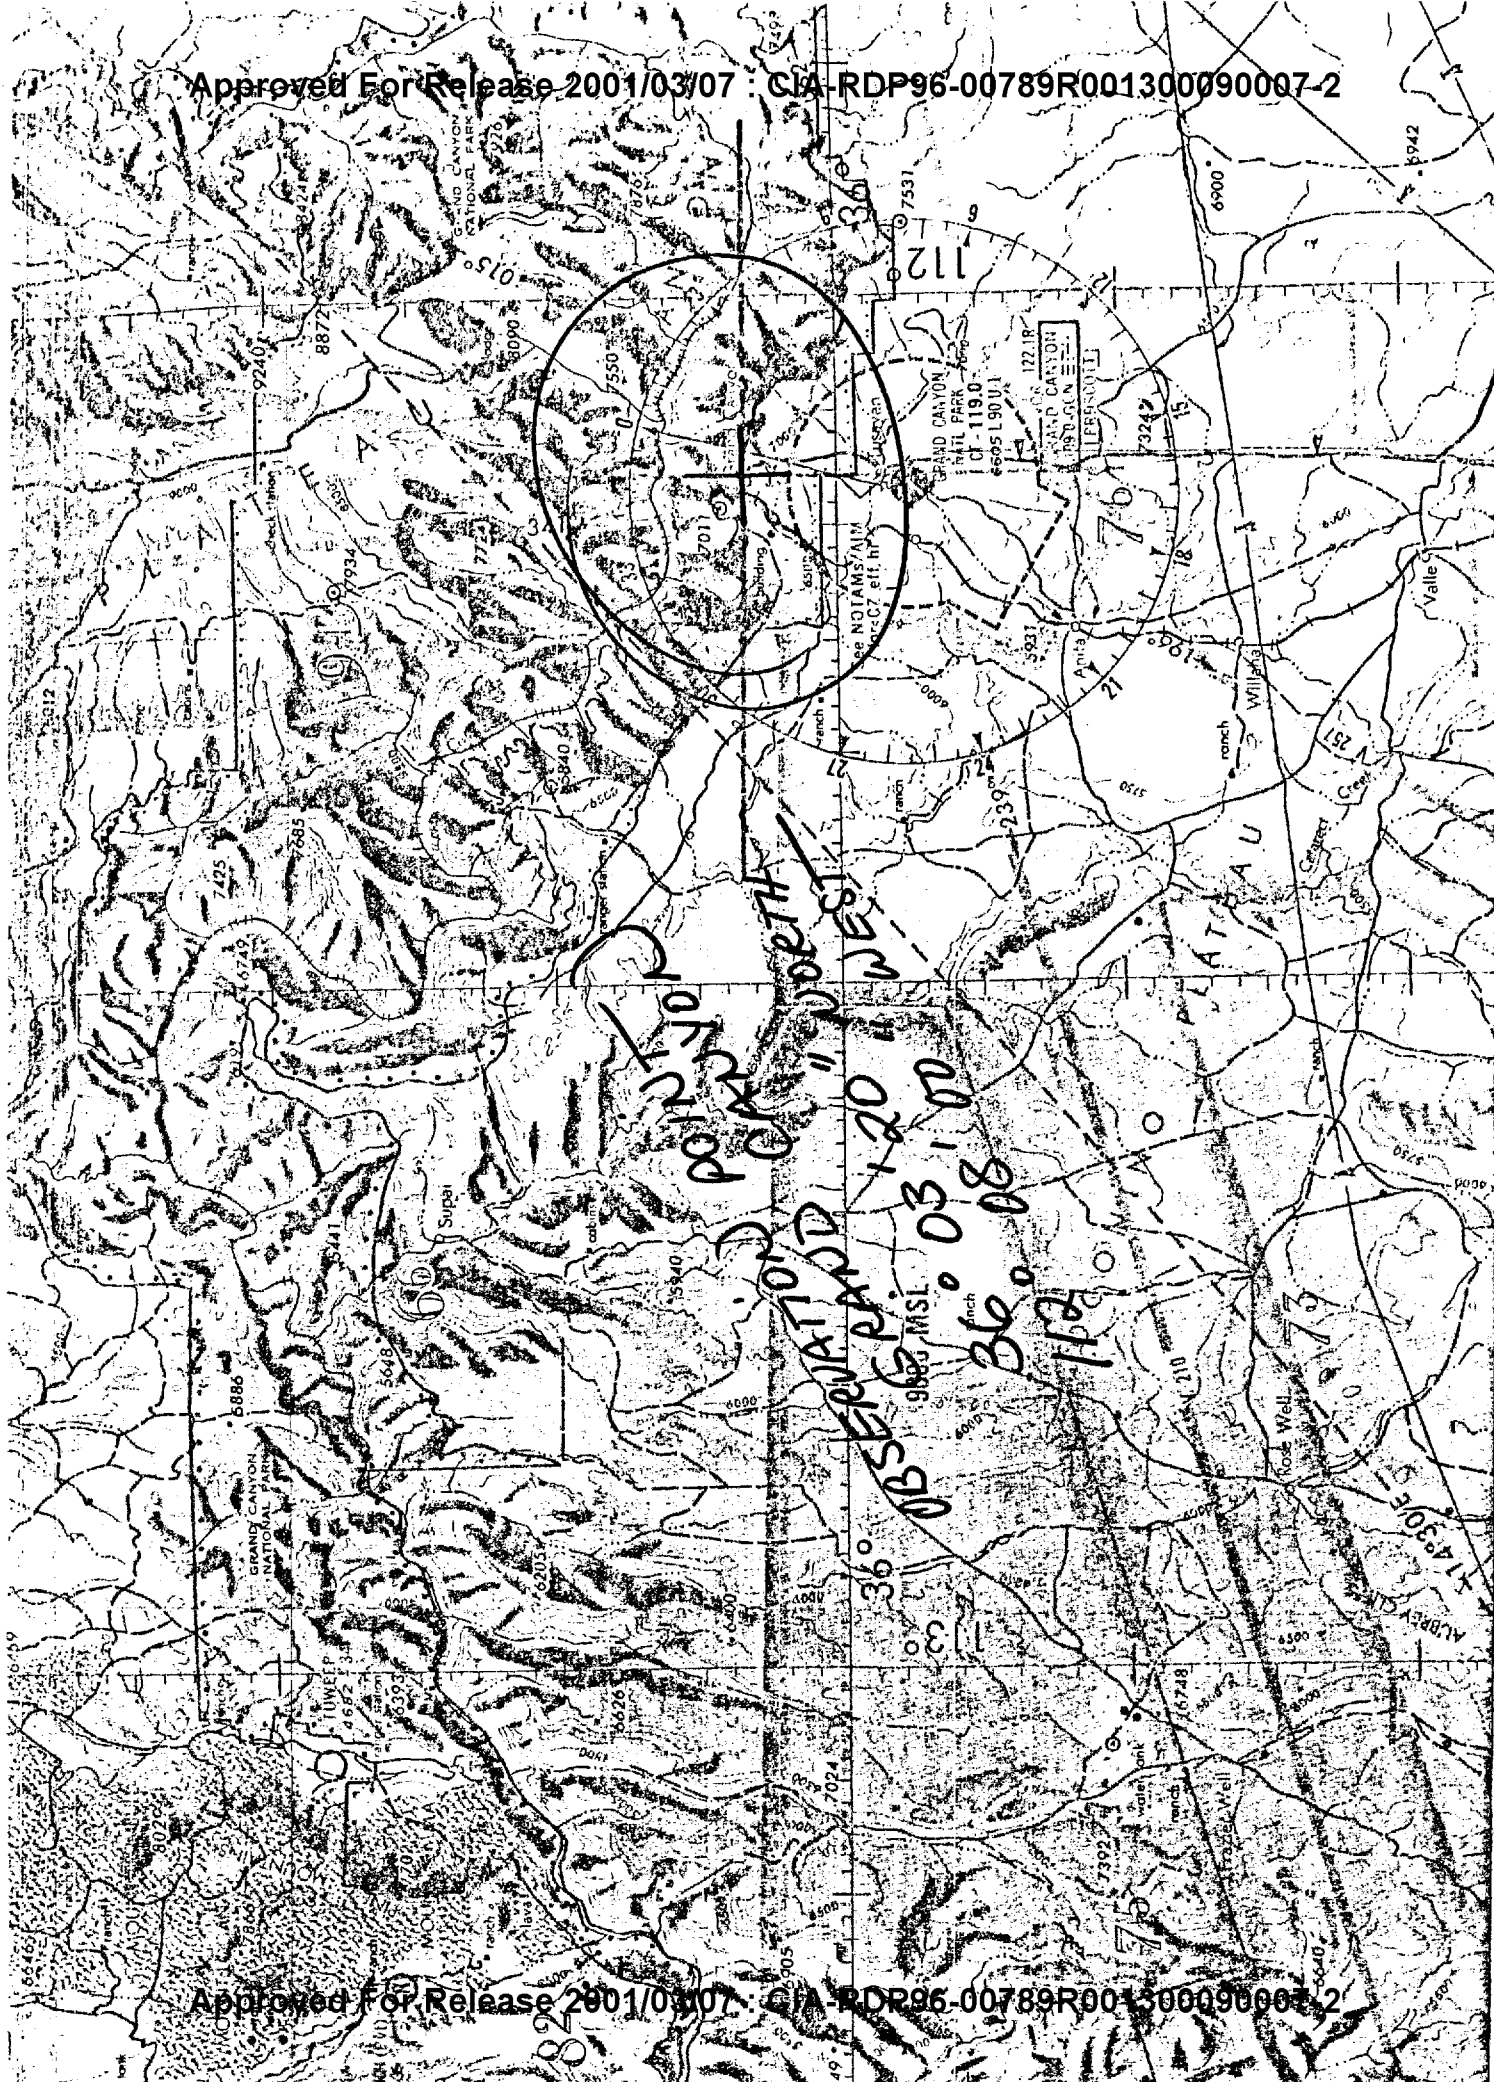

PROJECT NUMBER: S2 TNG	SESSION NUMBER: 1
DATE OF SESSION: 880823	DATE OF REPORT: 880823
START: 0900	END: 0930
METHODOLOGY: CRV	VIEWER IDENTIFIER: 32

1. (S/NF/SK) MISSION: Access and describe in a stage two sense training target # 7, Observation Point, Grand Canyon.
2. (S/NF/SK) VIEWER TASKING: Encrypted coordinates 3632/1128.
3. (S/NF/SK) COMMENTS: Excellent session. 032 incorrectly decoded several ideograms at the start of the session, which had he tried to progress into stage 2 at that point he would have gone into ADL drive. 032 seemed to know something wasn't right because he did not attempt to go into stage 2 right away as he normally does. Instead he waited until after he finally correctly decoded the ideograms (though he was not consciously aware of this until we discussed it after the session.) That 032 was able to do this is indicative that he has become adjusted to the Garden Room. He has an excellent, natural sense of pace which will serve him well in the future, particularly in Solo.
4. (S/NF/SK) EVALUATION: 3.
